Presenter: John West

Come and rediscover the gift of Mother Earth...in the midst of the California climate. Participants will revisit the dance of creation, the dance of Miriam at the time of Exodus and the spirituality of the Desert Mothers. Dancers of all levels, liturgists, musicians, artists and poets of faith will come together to translate our care and love for Mother Earth into movement reflective of God's creative energy in our humanity. Participants will have the opportunity to offer the work of previous days in a worshipful setting. Bring comfortable clothes.
